# HOW MUCH DATA DO I USE?

Today's users stream from multiple platforms. Below are some commonly used platforms and how much data you might expect to use from them.

## TV & VIDEO STREAMING

**3,000 MB/hr** When streaming in High Definition quality through Amazon Prime or Netflix

**7,000 MB/hr** When streaming in Ultra High Definition or 4k through Amazon Prime or Netflix

## SOCIAL MEDIA

**156 MB/Hr** Data usage estimate for browsing social media

## ONLINE GAMING*

**15 MB/hr** Data usage for regular online multiplayer games

**60 MB/hr** Data usage for multiplayer online battle arena games

*Most data consumption from games will come from game downloads and updates, some of which may contain several gigs of data
