WHAT I LOVE ABOUT MY HOME

- We fell in love when we opened the door to see straight out to the pool.
- It checked every box of every person in our family for what they were wanting
- We love the mature trees of the neighborhood especially the entry area's driving under the oak tree's
- When our children were younger, the park around the corner was a favorite of theirs.
- The spaciousness of the house allows for easy entertaining
- The game room was popular for the kids to have their own space yet we could easily keep tabs on them.
- Everyone has their own bathroom.
- The extra space in the garage was great for the handyman husband.
