

a note from the seller..

This home has been more than just a place for us to live—it's been the heart of our family's story. From the moment we moved in, we were drawn to the peaceful charm of the neighborhood, the beautiful green space right next door, and the privacy and shade of our backyard—where no one can see in, a rare luxury in the suburbs. The view from the second floor overlooking the trees never gets old, and being just a short walk to the pool and park has made everyday life here feel like a getaway.

Inside, the spacious layout and incredible storage have given our family room to grow, gather, and just be. Holidays here are something special—plenty of space for cooking, decorating, and hosting the people we love. Over the years, we've made thoughtful upgrades—from the custom laundry room and updated lighting to the electric awning on the back porch for shaded afternoons. We especially love how easy it is to get in and out of the neighborhood without dealing with traffic, while still being just minutes from Baybrook Mall, Costco, parks, and our favorite local restaurants.

While we're excited for the next chapter in Fort Worth, leaving this home is bittersweet. We always thought this would be our forever home, and it truly is one of those rare places that just feels right. We hope you feel the same warmth and sense of belonging we've felt here from day one.

The Hirsch Family
