*No one knows a home better than the people who live in it.  
Here are the sellers' top 10 favorite things about their home.*

1. High ceilings and big windows throughout the house make it feel open and bright.
2. So much storage and so many closets! Three of the four bedrooms have walk-in closets with built in shelving, plus a huge walk-in pantry that keeps going under the stairs. There's even a game room closet, three linen closets, and a coat closet.
3. This was the original model home when the neighborhood was built, so it has beautiful trim work everywhere. We've added even more in the kitchen and primary bath.
4. The kitchen cabinets are tall, custom shaker style with soft-close drawers, and super easy to keep clean. Between the drawers and cabinets, there's tons of storage too!
5. The neighborhood is peaceful and full of trees, with amazing neighbors all around. Our children have made many friendships here.
6. The long private driveway provided room for the family to play, shoot hoops, and pitch baseballs.
7. The big cul-de-sac across is great for racing bikes and throwing a football.
8. Location! It's an easy walk to the parks and ponds, and my kids loved riding their bikes to Bush and Mitchell. HEB, Kroger, and 1488 are just minutes away.
9. The beautiful curb appeal of a high-sitting brick home with well-manicured landscaping and pretty night lighting.
10. Plenty of room for parking in the driveway and on the street when family and friends visit.
