Brilliant Home Automation Light Switches & Control

Smart Home Control

All-in-One Smart Home Control

Transform your house or apartment into an easy-to-use smart home with the award-winning Brilliant Smart Home Control, Second Generation. Featuring both 2.4 GHz & 5 GHz dual-band support, a faster microprocessor, and 4x sharper images, our Second Generation panel delivers enhanced performance, better connectivity, and effortless smart home integration. (First Generation panel compatible.)

Control lights, music, cameras, locks, scenes and more

Alexa voice option and motion sensor

Built-in intercom to chat room-to-room or remote via app

Install in the place of a light switch in an electrical box

Control home from anywhere with our mobile app

Smart Dimmer Switch

Add smart lighting to any room

Turn regular lights into smart lights and make smart bulbs even smarter. Brilliant Smart Dimmer Switches combine with Brilliant Control Panels to make it easy for family, friends, and guests to control all your home's lights with touch, motion, voice, schedules, or remotely via app. At least 1 Brilliant Control Panel is required.
