Standard options and features lists as well as depictions of floor plans and elevations (each, a "Standard") are expressly not made part of any Purchase and Sale Agreement ("PSA"), nor do they give rise to any contractual relationship between you and Beazer Homes. Standards are intended only to provide a general overview. You may purchase an upgrade or, in its sole discretion, Beazer may substitute an alternative as provided in the PSA. The PSA's Addendum A will define what is included in your home. If you sign a Standard, it is simply your acknowledgment of receipt of the Standards applicable to this model of home. Furthermore, due to our consistent efforts to improve our homes, Indoor airPLUS is the U.S. Environmental Protection Agency (EPA) program for new homes that builds on the ENERGY STAR® program to recognize indoor air quality (IAQ) features in a new home. Through this EPA partnership, Beazer Homes has committed to promoting Indoor airPLUS qualified homes that provide homeowners with improved IAQ. To earn the Indoor airPLUS label, a home must meet strict guidelines set by the EPA for improving IAQ. Just like ENERGY STAR, the home is certified by an independent third-party inspector. Builders employ a variety of construction practices and technologies to improve the IAQ in new homes. Construction specifications include moisture and mold control, radon resistant construction (where applicable), pest barriers, effective heating, ventilating and air-conditioning systems, safe combustion, and healthier building materials. Please visit www.epa.gov/indoorairplus for details. Beazer reserves the right to make changes without notice or obligation to plans, elevations and pricing. Illustrations and specifications are believed correct at time of publication, and are not intended to create any warranty or contract rights. All plans, specifications, features, materials and appliances are subject to availability, change or substitution deemed advisable by Beazer Homes or as required by local building code or law. This feature sheet does not represent all standard specifications in your home. Details listed may vary depending on the plan, elevation, and options chosen. Any registered or unregistered trademarks appearing in this document are the registered or unregistered trademarks of and are owned by their respective owners. Please consult your New Home Counselor for details. ENERGY STAR and the ENERGY STAR mark are registered trademarks owned by the U.S. Environmental Protection Agency. ©2025 Beazer Homes. Features effective 2.3.25

THE HIGHLANDS DUETS COLLECTION

Included Features

LET'S BUILD YOUR FUTURE

Surprising Performance

- Your Energy Series READY home is certified by the US Department of Energy as a DOE Zero Energy Ready Home™ and is so energy efficient adding solar could offset most, if not all, of the annual energy consumption of the home.
- You can breathe easy knowing that all new Beazer homes are designed & built 100% ENERGY STAR® certified & Indoor airPLUS qualified, which means improved energy efficiency & air quality to give you a healthier, more comfortable home
- Performance testing on **every** home with a Home Energy Rating Score (HERS) on each plan
- Spray foam insulation in attic (including R44 grade on rafters) and exterior walls, seals the home giving you lower energy costs with a lifetime guarantee
- LP Novacore Thermal Insulated OSB (R3) sheathing to provide continuous insulation
- Energy efficient HVAC system with whole home Energy Recovery Ventilation (ERV) and Dehumidifier to maintain home comfort levels
- High Performance windows with Low-E glass, Argon gas, and a vinyl window frame to reduce heat transfer, energy loss, and outside noise
- EV car charging outlet in garage
- Sill seal and insulated headers (exterior) to reduce unwanted airflow
- Moen water saving plumbing fixtures
- Rinnai Tankless Gas Water Heater
- MERV 11 media filter to reduce dust and other air particles
- Energy saving LED light bulbs
- Daikin One Touch Smart Thermostat Wi-Fi programmable thermostat which allows homeowner remote access to control thermostat through computer, tablet, or smartphone via the free One Home Mobile app

Quality Construction

- Tyvek weatherization for protection against water & moisture
- Cement backer board behind wet walls to prevent water intrusion
- Durable, Cemplank by James Hardie, cement fiber siding and trim with industry leading, transferable warranty
- Engineered framing techniques for a stronger home and added windstorm protection
- Plywood panels secure the top and bottom plate for a stronger home
- Hurricane clipped framing for windstorm protection
- Sherwin Williams Low VOC paint, carpet and carpet pad that reduces emissions to help maintain better indoor air quality and create an environment that is safer for your family's health
- Engineered and inspected post-tension foundation
- American made ACME clay brick
- Carbon monoxide detectors (one per story)
- Smoke detectors with battery backups
- Initial termite pre-treatment that is sprayed on the wood on first floor exterior walls
