

a note from the seller..

Welcome to what has been a truly special place for me. When I first chose this townhome, it was all about the location. Being just minutes from the Galleria area where my office is, and within walking distance of amazing grocery stores and restaurants, it felt like the perfect fit. My daughter actually helped pick this place out for me, and she couldn't have been more right. It has been a wonderful home in so many ways.

The neighborhood is truly special. It's quiet, friendly, and has an amazing sense of community. I've loved walking to the park, where neighbors gather with their dogs or enjoy the playground with their kids. Community events are thoughtfully planned, and the association is incredibly communicative and supportive. With a pool, beautifully maintained landscaping, and amenities like water, sewer, trash removal, and exterior insurance all included, it's easy to enjoy everything this place offers without the stress.

Selling this home is bittersweet. I'm relocating to be closer to my father in Oklahoma City and to help my sisters care for him. While I'll miss everything about this home, I feel at peace knowing I'm doing what's best for my family. One of my favorite memories here is the day I moved in and felt instantly at home. I'll always cherish how this space allowed me to make new friends and feel connected to the community. I hope it brings you the same sense of belonging and joy that it has given me.
