Faulkey Gully MUD Trail and Sidewalk Partnerships

January 6, 2026 by [FGMUD](#)

Hike and Bike Trail Initiative

Faulkey Gully Municipal Utility District (MUD) (the “District”) has formed a collaborative partnership with Harris County and Malcomson Road Utility District (MRUD) for the construction of a Hike and Bike Trail. This trail will extend from Spring Cypress Road to Guernsey Road, providing residents with enhanced recreational opportunities and improved connectivity throughout the community.

[Water or Sewer Issues](#)

Project Funding Structure

To support the construction of the Hike and Bike Trail, both the District and MRUD have agreed to contribute \$800,000 each, resulting in a combined investment of \$1,600,000 total. Harris County has committed to covering the remaining costs necessary to complete the project, ensuring adequate resources for its successful completion.

Beautification Fee and Community Support

As part of the overall funding strategy, Faulkey Gully MUD introduced a voluntary \$5 Beautification Fee, added to residents' monthly bills. This initiative was designed to encourage community involvement and help the District achieve its initial funding goal for the Hike and Bike Trail project.

Grant Road Sidewalk Partnership

With the Hike and Bike Trail funding goal met, the District is now working with Harris County on a new sidewalk partnership along Grant Road. The Faulkey Gully MUD Board of Directors has expressed their intention to maintain the Voluntary Beautification Fee. The funds generated will support the Grant Road Sidewalk Partnership and future sidewalk initiatives currently under discussion, further contributing to the District's ongoing commitment to community improvement and accessibility.

To opt out of the Voluntary \$5 Beautification Fee:

Sanitary Sewer Rehabilitation Project 2025

December 23, 2025 by [FGMUD](#)

Over the next few months, residents of Faulkey Gully Municipal Utility District (“the District”) may notice Texas Pride Utilities’ crews working in the District.

The work is part of the District’s Phase 1-5 Sanitary Sewer Rehabilitation Project which includes repairing the existing sanitary sewer collection system through methods such as point repairs, cured-in-place pipe (CIPP), pipe bursting, and mechanical cleaning.

Work may involve the need for the Contractor to enter individual properties in order to access the sanitary sewer collection system.

Customers will receive written notification in advance with contact information.

The Project is essential for extending the life of the District’s infrastructure and ensuring the continued delivery of reliable service to its Customers.

Construction Alert: Faulkey Gully Wastewater Plant Upgrades Through 2027

April 1, 2025 by [FGMUD](#)

The Faulkey Gully MUD Wastewater Treatment Plant (WWTP), built in the late 1970s and expanded in 1984, is undergoing major improvements. JTR Constructors started work on March 3, 2025, with completion expected by Spring 2027. Residents of Faulkey Gully MUD and Malcomson Road UD will see increased traffic near the WWTP as repairs and upgrades take place. Both Districts aim to provide reliable wastewater service and greatly appreciate your patience during this period.
