Description	Total
Estimate to perform plumbing work required by city and inspection	\$9,200.00
<p>This estimate is to perform repipe replacing all water piping inside home with uponor pex pipe, insulating required piping, replacing hall bath tub valve with single lever chrome finish delta tub valve, installing water heater in attic and running pan and t&p lines down outside wall to proper location, repairing toilet fill valves and flappers, replacing p traps under both lavatories and kitchen sink installing them correctly, running primary a/c drain to lavatory or bathtub drain whichever is easiest, and repairing washing machine drains to code which includes running drain from backyard where stubbed out the brick to sewer line in the front yard. Customer is responsible for all excavation of ditch from backyard to sewer tie in and backfill after inspection. We will explain how ditch needs to be dug and if any extra digging is required by Jewell plumbing there will be additional fees to do so. We are not quoting to repair all issues reported in buyers inspection report we are only responsible for work described in this estimate. If customer needs additional work performed we can give an estimate to perform extra work. If city inspector finds any other issues besides what's described in this estimate additional costs will accrue to perform work.</p>	
50% of total will be due upon half way completion of the job. The remaining balance is agreed to be pay by end of this month so July first should be an adequate amount of time. Jewell plumbing can not extend time to pay this amount beyond this.	\$0.00
This estimate includes costs of permits and inspection from city of Santa Fe for plumbing	\$0.00
There will be multiple holes cut in Sheetrock to perform repipe, Jewell plumbing is not responsible for any Sheetrock damage or repair	\$0.00
Please sign and return, by signing you are agreeing to all the terms listed thank you for the opportunity to do business	\$0.00
