

What We Love About Living At Comanche Bend

We first moved to High Meadow Estates for the peace and tranquility, open space with no privacy fencing away from the madding crowds and traffic.

We have been joined over the years by wonderful neighbors who have become close personal friends. Living on a road that leads to a cul-de-sac the passing traffic is very light which significantly contributes to the peace and tranquility as well as the safety of the local children. Having the courtyard at the house let our grandchildren play to their hearts content without having to be continually watched, which was a wonderful freedom for them and one they could not have at their own home.

We love watching the aquatic birds which range from Bald Eagles, Ospreys, Herons and most lately geese. 2026 is the second year that geese have raised their families on the lake and it is truly inspiring to watch them parenting and caring for their offspring. The land-based birds are plentiful and varied and can be heard from morning to dusk, when at the right time of the year the Whip-poor-wills can be heard calling around the neighborhood.

There is a wonderful feeling of security about the neighborhood which benefits from regular police patrols. Over the years the communal facilities have been greatly improved notably the swimming pool and tennis courts. These are all well maintained for a most reasonable \$600 per annum HOA fee.

If we could go back in time, to a younger age we would not be looking to move as this has been our dream home and location which we worked hard to achieve over many years.
