SPECIAL PROVISIONS Break Through Floor

Allied Foundation Specialist, Inc. ("Allied") enters into this agreement on this 5 day of February, 2026 with Owner to provide labor, equipment, and/or materials or the work described on the attached Addendum "A" to the foundation of the property located at: 13614 oleoke lane (the "Residence").

Any work to be performed beyond the scope of the work must be in writing and signed by Owner and Allied. The agreed estimated price for the work is \$ 2,250.
Owner agrees to pay the agreed price as follows: \$ 0 at the time work begins and \$ 2,250 upon completion.

This proposal is void after 60 days and is subject to re-inspection.

REPRESENTATIONS

Owner represents that he/she is the legal owner of the herein above described residence (the "Residence") Owner represents that Owner has the legal authority to enter into this agreement.

SCOPE OF THE WORK

- The Scope of the Work is set forth in the attached Addendum A. All work will be completed in substantial accordance with the Scope of the Work. The Scope of the Work is not intended to be an exclusive remedy concerning the current or future need for additional work in other areas related with the foundation or Residence. A long term plan for providing ideal soil moisture conditions must be maintained, including maintaining positive drainage away from the foundation with proper grading, controlling large tree root growth, and maintaining a functional sewer system that is not leaking under the foundation. Plumbing leaks under the slab can and will result in foundation repair work to fail.
The stabilization or stopping of foundation settlement can and may reverse the damage already done to the foundation and structure and can and may create new damages by movement or lack of movement. In performing the foundation repair, the foundation will need to be adjusted to return the foundation to a feasible level. The movement of the foundation frequently causes cracks, separation, and other damages to the structure, both, the interior and the exterior, which cannot be avoided. By signing this agreement, the Owner represents and warrants that they understand that such items could occur and that the Owner will hold Allied harmless and indemnify Allied if any claims are brought against Allied relating to such items, and that these damages are the sole responsibility of the Owner.
When interior pilings are included in the repair plan, the contractor will break through floors and patch concrete. Interior and exterior concrete breakouts through and around the slab including driveways, walks, and porches will be replaced with concrete. The concrete patches will not match in color due to the age of the concrete. The home owner is responsible for sealing the concrete to prevent moisture from seeping in. Allied is not liable for the repair and replacement of all floor coverings, such as, tile, wood, laminate, carpet, etc. In the future, interior adjustments that can and may be required by tunneling to access the interior pilings will be an extra cost to the home owner. To excavate and backfill tunnels will be determined at \$100 per linear foot.
Owners Responsibilities: If the property is subject to any easements, covenants or other legal encumbrances that could affect installation or the work to be performed, Owner agrees to give written notice to Allied identifying the extent and location of the easements, covenants or other legal encumbrances, prior to commencement of the work to be performed. You agree to facilitate the location of underground/ overhead utility lines, identify your property lines, ensure that construction areas are free of pre-existing hazards, to grant Allied access to construction areas during working hours, and to keep unattended minors and pets out of the construction areas at all times while the work is in progress. Allied will call the proper agency for the utility lines to be located. Any line not properly located is not the responsibility of Allied. Owner is responsible for clearly marking existence of sprinkler systems, septic, electrical, water wells, phone, or data that is not part of the main service line to the structure.
Owner agrees to furnish all necessary water and electricity during times work is being performed. Allied has no obligation to repair or to replace any pre-existing damage whether it is exposed, concealed, or buried, to the foundation, structure, floors, plumbing, electrical wiring, furniture, fixtures, furnishings, or personal property absolutely and regardless of when or where said damages occurs. If damage occurs due to Allied's negligence, Allied is obligated to make adequate repairs that make the Owner whole again, not new replacement, nor new construction.
Plumbing: Owner is responsible for water and gas lines unless damages to same are directly caused by Allied digging into a pipe. Pre-existing plumbing of any kind, deteriorated pipes, and any broken plumbing caused by lifting and leveling of the foundation are the home owners' responsibility to repair in a timely manner without regard to when or where said damage occurs. Drain lines of any kind PVC, ABS or cast iron under the foundation must be free of cracks and breaks to avoid sewer leaks damaging the foundation or foundation repair work.
Incidentals: It is understood and agreed that in order to perform the above described work, sheetrock, wallpaper, tile, brick and mortar, stucco, roofing, windows, doors, door frames, driveways, sidewalks, attached porches or other rigid materials may very likely crack, bulge, pull apart, tear, break, skew, stick, stretch and wrinkle, loose exterior walls, broken brick ties are an absolute exemption to our foundation repair work. Our company excepts no liability for termite shield barriers disturbance during excavation. Therefore, Allied will not be liable for, and the above estimated work does not include, redecorating, repairing, electrical work, or replacement of any materials not specified in this contract. Any such damages or repairs are the sole responsibility and liability of Owner. Allied does not guarantee the survivability of any plants or shrubs removed during excavation and cannot be held responsible for landscaping of the yard.
Insurance: Allied Foundation maintains liability insurance and worker's compensation for customer's protection.
