

Hello and welcome to our home!

My husband and I met in Connecticut and moved to Houston for warmer weather and fresh opportunities. When we started growing our family we moved from Houston to Pomona because we were looking for a community, and we loved what Manvel offered in terms of proximity to the city, amenities and services right here in Manvel/Pearland. We love how easy it is to drive to the Houston Zoo, bike the kids to/from school and walk to Bee Hive Park. Not to mention it is easy to get back and forth from work even though I work in Houston.

Two of our kids go to Pomoma Elementary School, and it has exceeded our expectations. We love that they can see school friends at the parks and community events, and it has created a well rounded experience. Some of their best friends live on our street. Many hours have been spent running between front yards hunting for lizards, making forts and shooting nerf guns.

We almost moved in 2024 due to my husband's job shifting closer to The Woodlands, but ultimately we liked our home and what we had in Manvel better than what we found up there. After we almost moved, we poured more into our home to make it perfect: adding high quality vinyl flooring to replace all the carpet, making the primary bedroom a retreat and upgrading the look of the house.

We love this house and have poured a lot of ourselves into it. This past December we hosted a New Years Eve party (complete with a New Years balloon drop) and the house was full of friends and neighbors. It has been the perfect place for us to raise three kids from babies, to toddlers, to our youngest starting kindergarten in the fall. I don't think we would have survived without all the fun hours we have spent at the community pool and Backyard Park.

We know there are many houses in the neighborhood. We toured a number of houses six years ago when we were house hunting! But this is the one we fell in love with, and we hope you will too. What makes this particular house special is the location as it is easy to get in and out of the neighborhood due to its proximity to County Road 48. It is also a pretty low traffic street because most people do not use it to pass through the neighborhood. It is a quiet spot, and we love that we don't have back neighbors. We also have the best next door neighbors! Tyna (2123) has housesat and keeps an eye on things when we are out of town. Seoul (2115) is always able to help when a kid gets locked in the bathroom and my husband isn't home or our car needs to be jumped.

We are so sad to leave, but Connecticut is calling us back home as my husband has received a job offer he can't refuse. The saddest part of leaving is saying goodbye to this house and our community, but we are happy to think of the new memories and experiences a new family will get to have. As we start our adventures, we welcome you to your next adventure.

The Peterson Family
