

what we love about this home

21110 FREY LN

Favorite Features of the home:

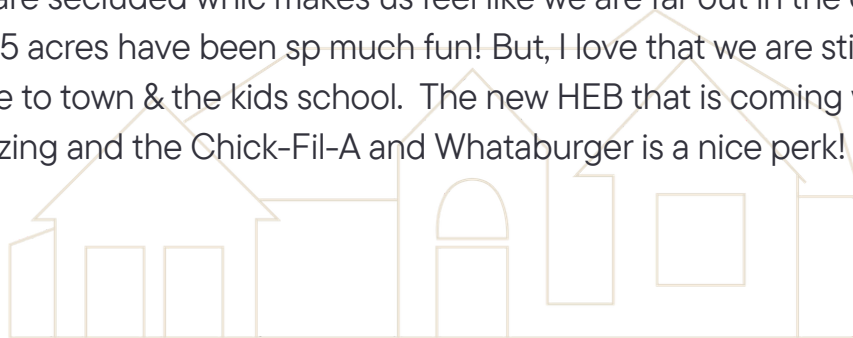

- I love our porches! Mornings on the front porch & evenings on the back are the absolute best. I love the large kitchen windows & the view from the kitchen sink, watching the kids play as I cook dinner or friends gathering outside is wonderful. All the natural light is also one of my favorite things. I love that it's not open concept, makes the home feel cozy and warm.

Favorite thing about the neighborhood:

- The large lots so we don't feel on top of one another. How amazing our neighbors are & how we help one another. Harvey, we each had trees that came down & all the men go together & helped one another clean up. That we are tucked away & no one really knows the neighborhood is back here.

Favorite thing about the location:

- We are secluded which makes us feel like we are far out in the country. The 5 acres have been so much fun! But, I love that we are still really close to town & the kids school. The new HEB that is coming will be amazing and the Chick-Fil-A and Whataburger is a nice perk!
