REAL ESTATE TEAM

Features Love Most

Our family regularly walks to the movie theatre, coffee shops, restaurants and our local grocery store. Having everything we need so close (< 1 mi.) and so new (Creekside is the newest village of The Woodlands) has been a real treat.

We are also within walking distance of miles and miles of nature trails, lakes and forests; the Spring Creek Nature Trail is right across the street. Our girls, Payton (14) and Finley (10), walk to places all the time. They (and we) feel very safe around here.

Sims spends most of his weekends on the back patio watching sports and cooking. Between the ceiling fans and two large tie-down shades, he stays cool in the summers, and they use a portable heater in the winters. The outdoor kitchen has been so additive to his home life.

And overall, we love how beautiful our area and our neighborhood is. The homes are nice, the streets are nice... we get a warm and fuzzy feeling driving home every evening.
