Notes From The Homeowner

“ I absolutely love my back porch! I find there to be such a sense of relaxation in this space. I have wildlife that comes to see me which includes a pair of foxes, deer, cottontail bunnies, and lots of birds. My family has enjoyed many many entertainment functions on the back porch. Simply grab a cold beverage, turn up some country music and enjoy the space. “

“The kitchen is my happy place! I am a hobby baker and the smell of fresh baked cakes and sweet treats for friends and client warms my heart. I find the kitchen to be very functional for moving around and slinging flour!”

“ One of my favorite memories was when a family member came over and pulled their motor home under the RV shed, hooked up, and was able to easily visit with me on the back porch. There is a full RV hook up out there and that has been great for my guests.”

“The City also does a great job for me with curbside trash pick up, the water system is great, we can even recycle here too. The recycle center is about 15 minutes away and we get discounts for services by being in the city limits.”

“ I love how much parking I have here too! We have always been able to park between 8-9 cars between the three driveways we have. It’s like my house was made to entertain!! The cul de sac has also offered some overflow parking if needed. Did I mention I don’t have a neighbor on one side? It’s very quiet and comfortable for me.”

So with all of the things you love, what brings you to sell?

“ I am selling because I am in a season of my life where I need to downsize my home size. Otherwise I would stay here”
