

What we love as the owners

We have cherished this house deeply over the past 5.5 years. Inside, we've enjoyed the bright, open concept floor plan that seamlessly connects the kitchen to the living room, making it an ideal space for entertaining. The abundant natural light, streaming through the surrounding windows, fills the living and dining areas with warmth and cheer.

One of our favorite features is the upgraded light blue/grey shaker cabinets that run throughout the home. They complement the engineered hardwood flooring, which extends into the primary bedroom. We've also enhanced the home's design with upgraded Pottery Barn light fixtures, matte black fans, and matte black bathroom faucets. Additionally, all door handles and hinges have been upgraded to matte black for a custom look.

Cooking together and hosting friends and family has been a joy in this kitchen, where the upgraded stove top and built-in oven have made meal preparation effortless. Another favorite feature is the sink in the laundry room, which makes cleaning up after gardening or pets simple and convenient. The built-in speaker system adds a perfect touch for both gatherings and quiet evenings at home.

Outside, we've enjoyed many evenings playing badminton in the large backyard grass space. The extended patio has been an ideal space for grilling and entertaining loved ones.

Upgrades:

- Painted shaker cabinets across the entire house
- Range and built in microwave and oven
- Farmhouse sink
- Engineered hardwood throughout the house, including primary
- Sink and painted cabinets in laundry room
