HOW TO CARE FOR YOUR WINDOW FILM:

- Do not use any alcohol or ammonia based glass cleaners. Doing so will break down the hard coating on the film and will void any manufacturer warranties.
- Any water beads will evaporate within several days.
- Allow the film to properly dry for 3 days before resuming normal use of windows.

Warranty Disclaimers

Warranty is included unless otherwise expressed in the final invoice. Warranties covers adhesive bubbling, peeling, discoloration, delamination. Warranties will NOT cover any damages done to film such as scratches, seat belt nicks, scratches from faulty gaskets, window break-ins, traffic violations. Double stacking films voids film manufacturer's warranty. *Customer is responsible for abiding by any laws set where the vehicle will be operating in. We are not responsible for any ticket violations.

*We are not responsible for any damages done to vehicle before or after they have left our shop.
